

Talibanization. Save before Sorry

Trooper Karine Blais, a young Canadian soldier just two weeks into her first tour of duty in Afghanistan had been killed the same day when a new law in Pakistan passed through which Taliban were given a gift of the judiciary in their hands in the northern areas of Pakistan close to Afghanistan.

It may be considered the darkest day in the history of war on terror for the NATO forces especially when Pakistan is one of the allies in war on terror.

This law was passed on April 14th by the Parliament and named 'Nizam e Adal Regulation'. This law gives the authority to Taliban to develop courts and

implement the sentences according to their way.

This agreement states that Taliban will provide peace if they are allowed to run judiciary on their own principles and practices. It has given unlimited authority to Taliban and radical clerics who are now asking this law should be implemented all over Pakistan.

It is needed to combat Talibanization on both physical and ideological grounds.

Allied nations, specially Canada and USA, should recognize the roll of liberal and secular parties in this war against Taliban and support them in all aspect to stop Talibanization

MQM was the only party in the Parliament who protested and opposed the Regulation which was passed by Parliament of Pakistan on April 13 and got approval of Mr. Asif Ali Zardari, the Leader of PPP and the President of Pakistan.

The system which Taliban had been practicing is totally against the teachings of Islam. Islam is a religion which has given respect, all sorts of rights and freedom to women. This is a religion which integrates every individual into net of society specially the poor and weak. But under the Taliban rule, all non Muslims are enemies of Islam specially westerners. Women are just another piece of furniture on the disposal of man. The fear of harsh

punishments is considered to be the way to keep peace in an unjust and deprived society.

This is a big blow to the war on terror in that region. If it won't be controlled now, this region will become a nursery for growing Taliban and they will be in better position to make this war on terror more complicated for the NATO forces.

MQM will never accept Talibanization of Pakistani society and we will oppose it with full strength, no matter what cost we will have to pay.

MQM Leader Altaf Hussain

MQM Leader Mr. Altaf Hussain reiterated strongly that MQM will never accept Talibanization of Pakistani society and will oppose it with full strength, no matter what cost we will have to pay.

He refused to accept baton and Kalashnikovs wielding Sharia. MQM leader said that MQM represents the middle class of Pakistan and had always raised voice for poor and deprived.

This party from the beginning had worked not only to prevent sectarian violence but also opposed all the political forces which are based on religious grounds.

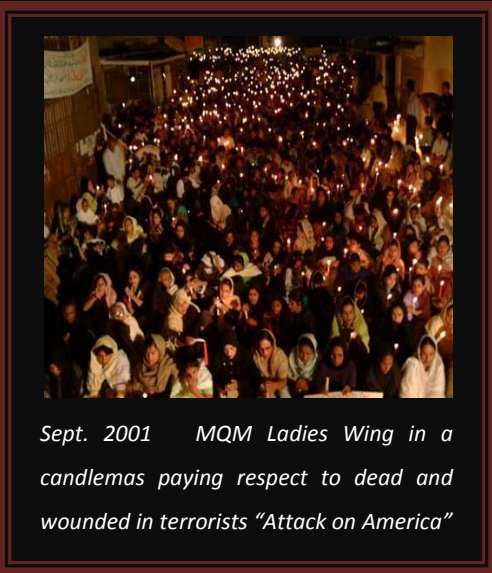

Soon after 9/11 MQM was the only political force in Pakistan which organized a Million People March in Pakistan against Taliban and supported the liberal view on war on terror and always stood behind all anti Taliban forces and ideology, though for this MQM paid great price because several of

Soon after 9/11 MQM was the only political force in Pakistan which organized a Million People March in Pakistan against Taliban and supported the liberal view on war on terror and always stood behind all anti Taliban forces and ideology

Sept. 26 2001. MQM leader Altaf Hussain addressing a million March Rally against Taliban's terrorism

its workers were killed and it was pushed out of mainstream politics of Pakistan by propagating that it has as a violent past and is extremist party, which MQM has strongly denied.

Sept. 2001 MQM Ladies Wing in a candlemas paying respect to dead and wounded in terrorists "Attack on America"

MQM leader often said that MQM has always worked democratically to fight against all sorts of religious fanaticism and oppression of any type and MQM has proved that it is a party of liberal views and strong enough to face any hardships in following its principles of a democratic society which believes in equal human rights and dignity.

At this crucial juncture of history when Taliban have strong hold on half of Pakistan and are launching their operations far from their hideouts in Pakistan's lawless northwest border areas, the Pakistan Government seems helpless to control Taliban from spreading all over Pakistan.

It seems important to raise the moral support and the recognition of those political forces in Pakistan who are standing in front of Taliban and have always confronted the Ideology of Talibanization in support of War on Terror.

In these circumstances it seems a sure way to stop spreading Taliban in all over Pakistan if allied Nations on War on Terror like America and Canada provide full moral support to the secular and liberal political forces like Bhutto's PPP and Altaf Hussain's MQM.

It is needed to combat Taliban and Al Qaida on

both physical and ideological levels.

Major parties of Pakistan refrained from doing so.

Ruling PPP of Benazir Bhutto surrendered under the increasing pressure of Taliban and is not even ready to challenge the ideology of Taliban.

Whereas, Pakistan Muslim League of Nawaz Sharif and previous ruling party PML-Q is providing open support to Taliban. A secular, strong anti Taliban and ruling party of the Northwet Frontier Province 'Awami National Party', seems helpless in rising control of Taliban in their province,

has surrendered in front of Taliban and has signed the agreement with Taliban.

Pakistan has reached to a very dangerous situation after this law has passed. It has paved the way of barbaric Talibanization throughout the country.

If Pakistan become a safe haven for Taliban and Al Qaida then who knows after our female trooper Karine Blais who will be the next target of Taliban.

It doesn't seem the sure way but this is the only best way at this time.

It is the time for Canadian leaders to come up and help Majority of secular and liberal Pakistani people who are at the mercy of these barbaric natured Taliban.
