

## **MQM Canada strongly condemns killing of innocent people by land mafia and Taliban**

This is not a sectarian violence. This is like Taliban using mask of land mafia and criminals to destroy peace of the city

MQM Canada has strongly condemned the killing of dozens of innocent people including three MQM workers by land mafia, drug dealers and hardened criminals supported by Taliban in Karachi. Central organizer said that those Taliban elements who are now seeking shelter in certain communities of Karachi, far far away from their traditional hideouts in northern areas, doesn't like the peaceful atmosphere of Karachi and are using those criminals to destroy the peace of the city. This is not a sectarian issue, this is clearly like using innocent Pashtoons for their own hidden agenda which is to threaten MQM workers who are strongly opposing Taliban. People of Karachi specially Pashtoon people should understand the situation and should strongly oppose those criminals backed by Taliban.

**Talibanization is a plot to break Pakistan into pieces and all patriotic Pakistanis, rulers and organizations of national security are bound to play their due role in order to save Pakistan.**
